

## Home Being Remodeled for Harold Sheehan

This is the home at 12 Washington avenue which a local committee of businessmen and veterans is seeking to finance and remodel for use by Harold J. Sheehan, totally disabled World War 2 veteran. The house was obtained for Sheehan on a G.I. mortgage loan, on which \$9,000 must be paid. The remainder of the money sought by the committee will be used to make the necessary changes so that the home may be used by Sheehan. These changes include the building of a ramp to accommodate the totally disabled man's wheelchair and the installation of an oil burner. Attorney Charles Gaffney is head of the committee. Contributions may be sent to Edward Remmert, treasurer, at the National Ulster County Bank of Kingston. (Freeman photo)

## City Registration Is 9,438 for Three Days

**Poll Figures Top Chinese Red Army 1947 Total; All State Heavy This Year**

Registration of voters for the election of November 8 continued heavy in this city Friday, with the day's total exceeding by more than 200 the total of persons registered during the third day of registration in 1947, the last "off-year" election.

Total voters registered during the first three days this year is over 9,000 more than those registered in the first three days of 1947.

Today is the last day of registration for this year's election. Polls opened at 7 a. m. and will remain open until 10 p. m.

Returns from the entire state, as reported by the Associated Press, point to a record off-year enrollment. In New York city, where Friday was the fifth day of registration, this year's total exceeded that of 1917 by 373,634.

Following is a tabulation of the number of persons registered Friday in each district of this city, compared with those registered on the third registration day of 1947:

Ward & District	1949	1947
First Ward	180	186
Second, first dist.	269	105
Second, second dist.	310	411
Third, first dist.	191	173
Third, second dist.	257	255
Fourth, first dist.	127	122
Fourth, second dist.	205	171
Fifth Ward	175	164
Sixth, first dist.	103	94
Sixth, second dist.	103	100
Seventh, first dist.	140	96
Seventh, second dist.	110	106
Eighth Ward	240	171
Ninth Ward	253	271
Tenth, first dist.	149	160
Tenth, second dist.	134	150
Eleventh Ward	283	265
Twelfth, first dist.	235	232
Twelfth, second dist.	226	212
Thirteenth Ward	86	72

Total ..... 3,842 3,657  
Following are the daily totals for 1949 compared with 1947:

Day	1949	1947
First	2,443	2,172
Second	3,151	2,613
Third	3,842	3,657

Total three days .. 9,438 8,392

## Kayoes Self With Bottle

PASSAIC, N. J., Oct. 15 (AP)—A former carnival entertainer here he could break a bottle over his own head. He won the wager twice. On the third strike he was out—cold. Police Detective Alex Matron said yesterday a friend of his, a 28-year-old man, bet him 25 cents he couldn't break an empty wine bottle over his own head. Powell, who came, took a swing and collected. Encouraged by success, Powell accepted another 25 cents wager. Matron said. He shattered the bottle over his head again with no bad effects and collected another quarter. But the third time he tried it, he ended up in hospital with 10 stitches in his scalp and a possible concussion. Matron said Powell told him he swallows lighted matches.

## To Receive Degree

New York, Oct. 15 (AP)—Prime Minister Pandit Jawaharlal Nehru of India will receive an honorary doctor of laws degree from Columbia University Monday night. The convocation, similar to one held in 1947 to honor Winston Churchill, will be at the university's Low Memorial Library before 650 guests.

## Chinese Red Army Entering Canton

**Spearheads Move On Toward Boundaries of Hong Kong**

Hong Kong, Oct. 15 (AP)—Chinese Communists conquerors walked into Canton today. Their spearheads shot beyond the late Nationalists capital towards the boundaries of Britain's crown colony of Hong Kong.

The pro-Communist newspaper Wen Wei Pao said green-clad Red troops "completely liberated" Canton this morning after an "orderly and peaceful" entrance into the South China metropolis, cradle of the revolution that overthrew the Imperial manchu.

Hong Kong was flooded with reports of Canton's occupation. But full details were not available because normal communications have not been restored.

Communist troops slashed down the Canton-Kowloon railway leading to the mainland borders of the crown colony. Hong Kong calmly awaited the approach of the Reds, expected sometime tonight. No trouble was expected.

Military dispatches reported the Communists occupied the big river town of Shuekling, 35 miles southeast of Canton, early today. By mid-morning they were at Cheungmaitai, another town only 20 miles from the British frontier.

Unconfirmed reports said Communist guerrillas had occupied several points along the 14-mile border.

Over 32,000 British troops were on guard in a broad security belt just south of the frontier. They (Continued on Page 10, Col. 3)

## Dulles Election Will Prevent Another War, Declares Dewey

Middleton, N. Y., Oct. 15 (AP)—Gov. Thomas E. Dewey says that voters will help prevent another war if they send John Foster Dulles back to the Senate.

The governor ended a whirlwind, two-day campaign for Dulles in Rockland and Orange counties here last night at a rally of 1,500 persons.

He said that the election of Dulles Nov. 8 is "of paramount importance if we wish to avoid sending our children into another war and avoid seeing our civilization destroyed in atomic slaughter."

In speeches here and at Port Jervis, Dewey praised the Republican senator as a "tower of strength" and a world statesman whose name is a "symbol of freedom" throughout the world.

Dewey, who appointed Dulles to the Senate last July after Sen. Robert F. Wagner resigned, said that Dulles since then has saved the taxpayers a billion dollars.

Dulles was responsible for saving half this amount on the foreign aid program, and another half billion on the military assistance program, Dewey said, adding:

"You never again in your lives will get a chance to vote for a senator worth a billion dollars."

The governor said the senator-in-light, in which Dulles is opposed by former Gov. Herbert H. Lehman, Democratic and Liberal party nominee, is "far above party lines."

"Good Democrats and Repub-

## Hershey Sees Another Draft Coming Up

Boston, Oct. 15 (AP)—The nation's selective service director believes there may be a draft call in the near future.

Mr. Gen. Lewis B. Hershey told a news conference yesterday that "there are grounds for thinking that there is going to be another draft call in the near future."

He added, however, that he had no orders for such a call but pointed out that quota forces are under their quota by about 25,000 men.

Hershey came here for a tour of state draft facilities.

## Marinero Home Is Damaged by Fire

**Overheated Hot Air Register Is Cause, Chief Reports**

A smoldering fire which spread through the walls and ceiling caused extensive damage to the living room in an apartment at 49 West O'Reilly street occupied by Mrs. Carrie Marinero this morning.

Fire Chief Joseph L. Murphy said the fire apparently started from an overheated hot air register at the base of the wall. It spread vertically to the ceiling along the chimney, then branched out along the beams above the first floor ceiling, the chief said.

Firemen succeeded in keeping the fire from entering the second floor, but some smoke damage was done on the upper floor, firemen said.

In addition to the charred beams and lath, a door casing was charred and the heat had (Continued on Page 10, Col. 3)

# Communist Party Fights for Life as 11 Leaders Are Convicted; Planning Laws To Keep Reds From Underground Work

**Capitol Hill Is Elated Over Jury's Decision Hitting Red Actions to Dump Government**

**Stab at Espionage State and Local Heads of Communists Are in for Hard Time**

Washington, Oct. 15 (AP)—The conviction of 11 national Communist leaders in New York stirred demands in Congress today for state and local crackdowns, backed by laws to root Communists out if they go underground.

Rep. Velde (R.-Ill.) said the staff of the House Un-American Activities Committee has been "alerted" to the possibility that the Communist party may publicly dissolve, with its members operating thereafter from behind the scenes.

Party officials have disclaimed any such intention.

Capitol Hill greeted the New York jury's verdict with almost unanimous acclaim, although Rep. Marcanonio (A. L. P.-N.Y.) called it a blow to "the basic American right of free political opinion and free political association."

Most members of the House and Senate declared the decision should establish to everyone's satisfaction that the Communist party's purpose is the overthrow of the government by violence.

Some saw in the jury's action a signal for a national drive to wipe out all "subversive" elements in the country.

Velde, a member of the Un-American activities group, said:

"I sincerely hope that the end of this long trial will be but the beginning of a crusade to wipe out forever the remaining forces of subversion and espionage in the United States of America."

He said Attorney General McGrath should hasten final disposition of the case through the courts of appeal, so similar prosecution can be brought against state and local Communist leaders.

Senator Mundt (R.-S.D.) declared the New York convictions emphasize the need for speedy passage of the Mundt-Nixon bill, which he helped write last year.

This bill would require Communist and Communist front organizations to register with the attorney general, deny government jobs to members of such organizations, and require American Communists to sever their links with Communist International.

It provides for a maximum fine of \$10,000 and imprisonment up to 10 years.

Mundt said the bill would outlaw secret activities by Communists and require them to "operate in the open."

Many Out Russia Ties "The Mundt-Nixon bill," Mundt said, "makes Communists cut the umbilical cord binding them to mother Russia or suffer the consequences for their disloyal and un-American activities."

There were differences of opinion, however, over whether a new law is needed to deal with Communists in this country.

Chairman Celler (D.-N.Y.) of the House Judiciary Committee said that if the higher courts uphold the convictions, under the law against incitement to overthrow the government by violence, "this would indicate that the law now is sufficient."

Some members voiced doubt that Congress, under the constitution, can outlaw the Communist party as such.

Whatever its future, the party has never polled more than 100,000 votes in the three presidential elections in which it put up its own candidates.

The Communist party in this country was created shortly after the First World War. It dropped its party label for a while during (Continued on Page 10, Col. 4)

## Mrs. Huckins' Death Under Investigation

The death of Mrs. Edna Little Huckins, 47, wife of Guy Huckins, who is head waiter at the Wildmere House at Lake Minnevaska, is still under investigation in an effort to determine the cause of death. Mrs. Huckins complained of feeling ill while returning from Karhonson to Minnevaska Thursday evening. She retired on reaching the hotel and her husband found her dead in bed Friday morning when he arose.

The matter is being investigated by Coroner Arthur C. Chipp and District Attorney Louis G. Eubank. No verdict as to the cause of death had been reached today, Coroner Chipp said.

## Red Lawyers Guilty, Too

Members of the defense staff in the Communist conspiracy trial confer in U.S. District Court in New York after the day's second verdict found them guilty of contempt. They got prison terms ranging from 30 days to six months. Left to right: Abraham H. Iserman, George W. Crockett, Jr., Richard Gladstein, Harry Sacher and Louis F. McCabe. Sentenced with them was Eugene Dennis, one of the top Communist leaders convicted of conspiracy to overthrow the U.S. government; he had acted as his own attorney. (NBA Telephoto).

## \$51,500 Verdicts Returned in Six Negligence Cases

**Actions Involved People in Two-Car Crash South of Port Ewen Oct. 12, 1947**

Verdicts totaling \$51,500 were returned late Friday in the six negligence actions which had been on trial in Supreme Court for the past several days, involving people who were in a two-car automobile accident south of Port Ewen on October 12, 1947.

William H. Dougherty of New Kingston, as administrator of the estate of William Dougherty, son, who was fatally injured in the accident, was awarded a total of \$25,000.

Francis S. Hanson of Arkville, by guardian, was awarded \$20,000. He was the driver of one of the cars involved. George G. Miller of Margaretville, a passenger in the Hanson car, was awarded \$1,500.

Gerald Hanson, father of Francis S. Hanson, owner of the car will receive \$350 for damage to his car under a stipulation which was entered into between counsel during the trial when it was agreed not to submit that matter to the jury because of possible confusion.

Albert Bailey, Sr., of Harlem was awarded \$5,000. He is the father of the operator of the second car, operated by Albert Bailey, Jr., and owned by Bailey and the Braddock Automobile Music Company of New York for whom Bailey worked.

All of the verdicts were against Albert Bailey, Jr., and the Braddock Music Corporation. Verdicts of no cause of action as against Hanson, who had been named as a defendant, were returned.

Abraham Stetler appeared as attorney for William H. Dougherty and George G. Miller. Louis G. Bruhn appeared as counsel for Albert Bailey, Sr. Cashin & Elwig appeared for Gerald and Francis S. Hanson and Carter & Conboy with N. Le Van Inver appeared for Braddock Automobile Music Corporation and Albert Bailey, Jr.

The accident happened during the early morning hours of October 12, 1947, while the Hanson car was being operated south on route to New York and the Bailey car was being operated north on route to Oneonta. At the time of the accident there was a heavy fog.

## Overheated Range

A kitchen oil fange out of adjustment caused the paint to burn off a flue pipe and did some smoke damage throughout the home of Mark Cornwall at 34 Grant street at 8 p. m. Friday, the fire department reported. The fire was out on arrival of the firemen.

## House Says Unity Plan Must Work

By BARNEY LIVINGSTONE

Washington, Oct. 15 (AP)—House members served blunt notice on the bitterly quarrelsome armed services today that military unification must be made to work.

Expressions from key members of the Armed Services Committee indicated clearly that the navy's sharp criticism of Pentagon high strategy has convinced them that blame for flaming military differences rests in administration of the law rather than in the law itself.

Rep. Kilday (D.-Tex.) said that on that point he shares the opinion of Adm. Louis E. Denfield, chief of naval operations.

Denfield summed up the navy's case against defense policy makers on Thursday as a failure of the clashing services to coordinate their efforts—not failure of the intent of the law.

"I think it all means simply that the unification law needs to be administered in accordance with its letter and spirit," Kilday told a reporter.

That also was the opinion of Rep. Price (D.-Ill.).

"The committee hearings prove that one thing definitely needs to be done—give unification a chance to work."

Rep. Brooks (D.-La.), who has shown some disapproval of the navy's criticism of defense policy, asserted unification "hasn't even been put into effect yet." But he added:

"Maybe out of the welter of talk we can salvage an idea that will make unification more workable."

Chairman Vinton (D.-Ga.), who has accused Secretary of Defense Johnson of making a "grand stand play" on military economy, has suggested several amendments to the unification law if necessary.

The committee took a breather over the week-end before hearing the air force and the army side of the controversy.

## Firemen Lose Lives

New York, Oct. 15 (AP)—Rescue workers early today dug through the charred debris of a fire-wrecked building in search for two firemen trapped when part of the structure collapsed. Fire Chief Peter Loftus said there was "little hope" for the two missing men. The two, identified as Fred Lehman and Daniel Shea, were said to have been on the ground floor of the burning building when the roof and three floors of the structure caved in. Loftus said the two missing men were about 20 feet from the entrance of the loft building, spreading canvas over stock to prevent water damage, when the structure above them fell in.

## Water Situation In New York City Declared Serious

**Condition at Kensico Reservoir Considered Critical; Appeal Is Made to People**

Residents of the city of New York have been appealed to by Mayor William O'Dwyer for a reduction in water consumption due to the low condition of the distribution system. Mayor O'Dwyer reports the water situation "most serious."

The condition at the Kensico reservoir is considered "critical" and the limited capacity of the aqueduct from the Ashokan reservoir to Kensico makes it impossible to replenish Kensico, although water is being sent down from the Ashokan reservoir to the full capacity of the aqueduct. Water is being withdrawn from Kensico at faster rate than the 650 million gallon replacement through the Ashokan tunnel.

Kensico reservoir in Westchester county is a large receiving basin into which the Catskill water is delivered from the upstream areas before being delivered to the aqueducts leading into New York city. At the present time Kensico is down ten feet and has in storage 6 billion gallons less water than at this time a year ago. It is less than half full, and is dropping daily.

No water is being delivered at present from the Rondout at Lackawack, the aqueduct having been closed down for inspection. Water from the Lackawack reservoir area, unless sent directly to the aqueduct flows into the Rondout and is lost since there is no storage capacity yet at the Merriman dam at Lackawack where work is progressing.

Gilboa reservoir with a storage capacity of 194 million gallons of water is practically empty and is sending down through the Shandaken tunnel only about 40 million gallons of water each 24 hours. There is one and three billion gallons of water in Gilboa.

The Ashokan reservoir which is being called upon to supply practically all of the 650 million gallons of water daily to Kensico, is now down to about 58 per cent of capacity. The Ashokan usually holds 130 billion gallons of water and at present has about 76 billion gallons in storage with but little coming in from Gilboa. The Ashokan reservoir is considered low for this time of year and is considerably lower than at this time a year ago when it held about 90 billion gallons, or 70 per cent capacity.

At the present time New York city draws from the Westchester system about 750 million gallons daily. At this rate Kensico is losing about 100 million gallons each day over what is being replaced from the Ashokan system which can deliver a capacity load of about 650 million gallons a day.

## Purge Explained

Prague, Oct. 15 (AP)—The controlled press declared today police roundups and political purges will continue in Czechoslovakia "until hostile elements and imperialist agents are liquidated."

**Defense Lawyers Frame Appeal From Historic Verdict That Blasts Whole Future**

**May Bring Crusade 10 Years in Prison and \$10,000 Fines Are Maximum Penalties**

New York, Oct. 15 (AP)—Seven of the nation's top Communist leaders were bound here today with their Communist party in America facing a fight for its life.

They were convicted yesterday as plotters of violent revolution against the country, they professed to love.

The historic verdict, which defense lawyers said would be promptly appealed, cast a heavy shadow over the future of the Communist party in this country.

The Communist Daily Worker, of London, Eng., said the verdict has virtually made the party illegal in the United States.

"For the first time in the history of the U.S.," said the Worker, "it has been declared a crime merely to be a member of the Communist party."

However, the Communist Daily Worker, in New York, said the party "has not been outlawed" and that the American people would defend its "absolute constitutional right" to continue to function.

In an editorial for its week-end edition, the Worker said that "Pro-Redist forces" would use the decision for "further assault on American liberties, and added:

"The press is already saying that this verdict outlaws the Communist party, but this is not true. All such talk is intended to frighten the people."

Can't See Underground Miss Elizabeth Gurley Flynn, a party national committee member, denied that the verdict would drive Communists underground. She said the party will still operate as usual.

But some reaction in Washington was that the verdict put the party outside the confines of law. There also were demands for stronger crackdowns on communism.

Rep. Hamilton (D.-N.Y.) of the House Un-American Activities Committee, said the verdict confirmed that the Communist party is or is being conspired.

Rep. Velde (D.-Ill.), a member of the same committee, urged that the verdict spark a crusade to wipe out forever the remaining (Continued on Page 10, Col. 1)

## 100,000 New Homes Are Started During September in U. S.

Washington, Oct. 15 (AP)—Builders started construction on 100,000 new homes in September, setting a record for that month which one government official termed "remarkable."

The Bureau of Labor Statistics reported the figure today. It offered new evidence of a spurt to make up the country's housing deficit in the season. The B.L.S. official noted, when a fairly steady slow down in construction of bad building weather.

The total was only 300 homes short of the postwar peak reached in May, 1948. But this year's pattern was wholly different. Last year's housing starts declined steadily from May on the year has seen an unbroken month-by-month rise since January.

July and August also were record-breakers. As a result the first nine months of 1949 have contributed a total of 743,000 new, permanent homes and apartments. Farm homes are not included in the B.L.S. count.

If construction dips only slightly this month, as officials anticipate, the 1949 total is likely to approach one million.

One sign that such a dip is in hand was noted in a separate B.L.S. report which said employment by building contractors dropped slightly in September to a total of 2,315,000 workers, one per cent below the August figure.

The value of new construction in September—housing and non-residential, contract and non-contract—rose to \$1,214,000,000, B.L.S. said. This was \$9,000,000 above August and was the 1949 peak in construction outlays.

The \$1,000,000,000 spent on all new construction so far in 1949 exceeds expenditures in the first nine months of last year by about one and one-half per cent.

## Last Chance

Today is the final day of registration and the polls in the wards throughout the city will be open until 10 o'clock tonight. If you do not register by 10 o'clock this evening, you cannot vote in the very important election to be held November 8. If you do not vote, you are not doing your duty as a citizen. Do not neglect this duty. Register by 10 o'clock tonight.

## To Speak Here

## Nazarene Guest

RUTH LINDSTROM

REV. SAMUEL YOUNG

Miss Ruth Lindstrom, a missionary to West China, will be the speaker Wednesday night at the opening service of the annual Missionary and Bible conference of the Alliance Gospel Church, corner of Franklin and Pine streets, the Rev. Virgil R. Brisco, pastor, has announced.

The convention is the highlight of the local church program when missionaries from foreign fields speak at local churches with the latest news of missionary progress in their fields.

Miss Lindstrom first went to West China August 21, 1920 and has spent three terms there, her last term being eight years in length. Most of the time was spent along the Kansu-Thibetan border. She remained at her station during World War 2, her only contact with the outside world being air mail brought over the "Hump" from India.

The meetings of the convention, which start Wednesday at 7:45 o'clock, will continue through Sunday, October 23.

The Rev. George Dozier of Ecuador, S.A., will speak at the local church Thursday night, Oct. 20.

The Rev. Samuel Young, D.D., of Wolliston, Mass., is one of five general superintendents elected to supervise and administer the work of the Church of the Nazarene, which maintains its international headquarters at Kansas City, Mo.

At the time of his election as general superintendent, Dr. Young was president of Eastern Nazarene College, one of six liberal arts colleges in the United States maintained by his denomination.

The Rev. Samuel P. Young, D.D., will be the speaker Sunday evening at 7:45 at the First Church of the Nazarene, corner of Elmwood street and Willoughby avenue.

Traveling widely in connection with his duties as general superintendent, Dr. Young has not only ministered throughout the United States and Canada, but has traveled extensively in Latin America and the British West Indies, supervising the missionary work of his church in that area.

portland cement paint, which you can get from your local paint dealer, and use as directed by the manufacturers.

Cost of Sidewalks

Q. Why should it cost so much more to lay a brick sidewalk than one of concrete? The bids we have for a brick sidewalk are much higher than for the latter.

A. The reason is that the brick requires just about as much concrete for a base and for grouting to set the brick as is required for the plain concrete walk with a cement topping. In other words, one has the extra cost of the brick for this sort of a job. The difference in appearance may justify the price.

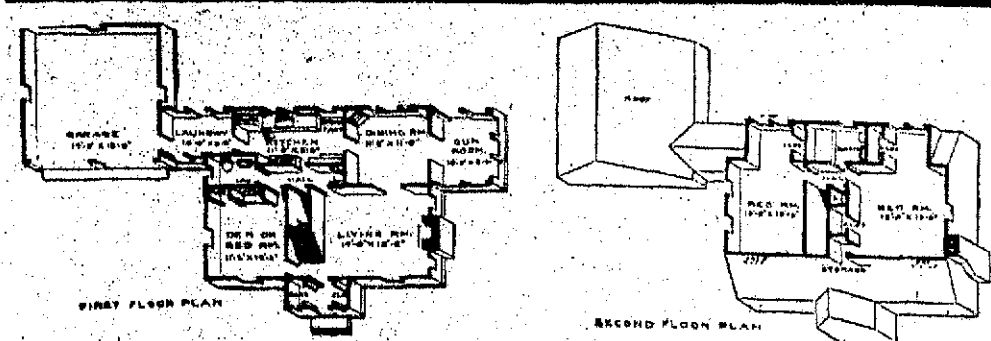

## Questions, Answers

Remedying Brick Wall

Q. What is your advice as to the best material to put on the outside of a brick wall that has become porous?

A. A satisfactory way to refinish your brick wall is to have it panned over and all the joints pointed with a cement mortar of 1 part portland cement and 3 parts sand mixed with just enough water to permit it to be worked into the joints. Then paint the brick with a

## THE HOPKINTON

Size 31'-0" x 25'-0" Cubage: House 17,500 feet; Garage 5,700 feet.

## Contains Many Features for More Living Comfort

The "Hopkinton" offered today as the "Home of the Week" design gives the modern home seeker almost every asked for detail for more comfortable living. In addition to providing four rooms on the first floor with two on the second this plan leaves space for a modern first floor laundry and also a sun room which provides access to the rear yard without going through the kitchen.

Outside dimensions are 31x25 feet with the cubage 17,500 for the house and 5,700 for the garage. The overall length of the entire house, garage, and sun room is 65 feet so a lot with a minimum frontage of at least 90 feet would be required. Of course, a somewhat larger lot would set this beautiful home off to better advantage.

The usual lines in Cape Cod architecture have been followed in this design which is made still more attractive by the addition of the front vestibule.

Either black or green shingles would look best on the roof with matching trim. The calico brick of the chimney breaks up the expanse of white wood work.

Attractive Front Entrance

Of stock Colonial design, the front door has an overhead night light, and is set off by two oblong windows on either side. The front door opens into a vestibule that has a large coat closet on each side. The archway at the end opens onto the living room which is very generous in size, being 19'x13'. This room is well lighted and cross-ventilated by a large window in the front wall and by two smaller windows at either side of the fireplace, which is centered in the long outside wall.

A straight open stairway starts at the doorway leading to the bedroom or den, and a large archway opens in the rear wall into the dining room. A door to the central hallway is located in the rear wall of the living room in the corner near the stairs.

Measuring 11'x11' the dining room has a large picture window or triple mullion window in the rear wall between the china cabinet and the built-in sideboard. The outside corners in the rear of this room. Hidden indirect lights give a soft glow to the room.

French doors open on to the sun room which is 10'x8' and is glassed in on three sides with a glazed door in the rear leading to the garden. Venetian blinds are recommended throughout this house.

The den or bedroom is 11' 6" x 10' 6" and has two large windows—one in the front wall and the other in the side wall. A large built-in cupboard and closet space are provided in the rear wall. A doorway between the cupboard and stairs opens into a straight hallway.

Provisions for Shower

If the owner so desires provisions could easily be made to install a shower in the lavatory at the left end of this hallway. A large linen closet is placed at the right end of the hallway, and the entrance to the basement stairs is located between the two doors leading to the bedroom and living room.

The basement is of full cement construction with the heater room under the living room. Forced hot water heat is suggested for this house. The bulkhead in the basement area can thus be used for storage, etc. A bulkhead could be built under the laundry space to make easy access to the rear yard.

Measuring 11 feet by 8 feet, the modern, oblong kitchen is reached from the central hallway through a swinging door. The stove is located at the left of this doorway and a built-in storage closet is at the right side of this door. There are three windows in the rear wall of this room. The breakfast nook is located under the larger window and the two other windows placed over the sink.

Another swinging door leads to the dining room and is located in the end wall between the breakfast nook and the built-in cupboard. The refrigerator is placed at the left end of the sink. Linoleum covers the floors in the lavatory, kitchen and central hallway.

A glazed door opens from the kitchen into the modern laundry

space that is 10 feet by six feet. Doors are provided to reach both front and rear yards as well as to lead directly into the two car garage. Overhead storage space is provided in the garage for screens, storm windows, etc.

The straight stairway, leading to the second floor, lands in a short hallway which connects both bedrooms and serves the bathroom as well. A good sized

linen closet is placed at the right side of the stairs and the door to the modern bathroom is placed opposite the doorway serving the linen closet.

The left bedroom is 18'x10'6" and has a built-in chest of drawers in the wall in front of the room. A large closet space is placed in the rear corner of this room adjacent to the double windows. There are two other win-

dows in this room which will assure good cross circulation. The other bedroom is 18'x13'.

An access door is placed to reach the storage space back of the vestibule roof and good sized clothes closet is located adjacent to the storage space. There is also another good sized closet placed in the rear of this bedroom next to the double windows. There is one window in the side wall of this room.

Insulation is used under the roof and in the side walls throughout the house. Louvers are placed in the gable ends.

Plans Available

Complete plans and specifications for this "Home of the Week," or any other design of this series, are available at moderate cost. To ascertain the exact price of these documents, write to the Home Building Editor, The Kingston Daily Freeman and enclose a self-addressed envelope bearing a 3-cent stamp. At least one week should be allowed for a reply.

(Released by the Home of the Week Plan Service, Providence 6, R. I.)

ent upon adequacy of room area, the relationship of rooms to afford privacy, circulation within and between rooms, room egress, and equipment that provides for the convenience and comfort of the occupants.

Eliminate Waste Space

A practical relationship between livability and economy requires the elimination of waste space, especially in hall areas. Rooms must be planned for dual purposes whenever possible so as to accommodate as many living requirements as are likely to be presented. An economical plan would also provide rooms whose shape and wall space permit the use and arrangement of essential movable furniture without excessive floor area.

The question of whether a dining room is a luxury or a necessity in the low-cost home is invariably a factor for consideration. In minimum homes, cooking and dining, or living and dining, may be combined in one room in the interest of economy, although in more pretentious homes these functions are usually separated.

Most builders now feel that a compromise can be effected for the small, low-cost home by combining the dining function with either that of cooking or living. This compromise is logical since dining space is required for use for only about three hours each day.

Put Dining Space in Corner

Where the dining room and living room are combined, space economy is often obtained by locating the dining space in a corner, usually near a window. The home owner who selects furnishings with care can make the dining room so as to appear as one unit when not used for dining. In this manner, objection to the

Well-designed, livable houses can be built economically if a few fundamental principles are observed.

Good design needs no definition but livability may have several meanings because of its generality. Livability is depend-

ent upon adequacy of room area, the relationship of rooms to afford privacy, circulation within and between rooms, room egress, and equipment that provides for the convenience and comfort of the occupants.

Eliminate Waste Space

A practical relationship between livability and economy requires the elimination of waste space, especially in hall areas. Rooms must be planned for dual purposes whenever possible so as to accommodate as many living requirements as are likely to be presented. An economical plan would also provide rooms whose shape and wall space permit the use and arrangement of essential movable furniture without excessive floor area.

**ULSTER COUNTY TUMOR CLINIC**  
On Thursday, October 20, when the Ulster County Tumor Clinic opens its doors for a continuing program to improve the quality and scope of medical service for the welfare of the people of this area, it will be accomplishing a community-wide facility which no other county has succeeded in establishing. Through the foresight of the Ulster County Board of Supervisors, this clinic was created to afford modern care to the potential and actual cancer patients and also to provide opportunities for physicians to utilize modern facilities in diagnosis, therapy and development of education and research in malignant and other allied diseases. In order to attain a high degree of medical standards in any community, there must be an appreciation of health problems not only by members of the medical profession but also by other interested citizens. The Ulster County Tumor Clinic is a reality because of the genuine interest of so many Ulster County people. Lay and professional groups working together with a profound appreciation of the problems of health have succeeded in erecting this modern clinic, which the people of Ulster County justly can feel proud.

Adjoining the new Tumor Clinic is the Kingston Laboratory, erected in 1936. This is the only municipally-owned laboratory between New York and Buffalo. Besides two large general hospitals—the Kingston and Benedictine Hospitals, we have a large tuberculosis hospital. Also we are one of six counties in New York State with a County Health Department. There also is under consideration at this time a sanatorium for chronic disease patients. A probable future project will be the establishment of some sort of rest hostel wherein persons seriously ill with tumor malignancies might come to Kingston during treatments, instead of having to go long distances to their homes, only to return the following day, if required. Measured by either the qualitative or the quantitative yardstick, the medical program of Ulster County is unequalled in any comparable county. This awareness of the problems of health of its people by Ulster County stands out impressively today and especially so when there is a movement for regimented or socialized medicine by the government. If there were similar interest and action by other communities throughout the country there would be little excuse for the proposal of government dominated medicine standards. It has been said that the surest way to improve American medical service is to keep politics out of it. The continuing program in Ulster County would seem to prove it.

**CHILDREN IN LEAVES**  
Police Chief Van Buren requests parents to prohibit their children from playing in leaves piled on the city streets. A small child buried in a pile of leaves may not be seen by drivers of motor vehicles pulling into curbs, making the practice extremely dangerous. Mounding leaves, then burrowing into them so that they are completely concealed is an annual game enjoyed by children. But it is a very risky one and the practice should be stopped by the parents. Experience proves either that many parents are unable to control the youngsters or are unable constantly to keep them under surveillance. Therefore, it seems up to the motorist. When you see a mound of leaves slow down and give the kids the "brakes."

A philosopher remarks that if we did not have the Russians to trouble us, it would be something else, and probably equally annoying. People never tire of exposing the weather man as a false prophet, yet they never cease to follow him. In city traffic these days he who hesitates gets the blame for a traffic jam.

# 'These Days'

By GEORGE E. SOKOLSKY

ONE OUT OF NINE

"One out of every eight or nine persons employed in the United States today is a government worker."

This startling statement is the first line of Solomon Fabricant's statistical study, "The Rising Trend of Government Employment," issued by the National Bureau of Economic Research.

Altogether a total of more than 6,000,000 adults are employed by "... federal, state, local, including school and other 'districts,' and government enterprises and corporations. Among these employees are members of the armed forces as well as civilians, and unclassified and temporary employees as well as civil service appointees. All part-time workers are covered by the payroll data, in terms of either number or 'full-time equivalent.' ... In 1900, these units employed about 1,000,000 persons.

Fabricant compares the increase between government employment and total employment and he finds that "... The rate of growth in total employment, substantial though it has been, fell far short of the very high rate of growth in government employment. ... Total employment increased from 1900-48 by about 12 per cent, while government employment increased by 450-500 per cent, privately employed workers by about 100 per cent.

Fabricant makes two points which I prefer to quote: "... In not a single function of the federal government, the cities, or New York state (or other states of which he have record), was the number of workers actually reduced. In no other sector of the economy would we find every major division expanding.

"The results are almost as striking when growth in population is taken as the standard against which to set the rates of increase in individual functions. Every federal function pushed employment up more than population grew. Every New York state function pushed employment up more than the population of the state grew. As for cities, all except three functions pushed employment up more than urban population grew.

"The three municipal functions that did not grow as rapidly as urban population are the 'general control' functions, administrative, legislative, and judicial. In the federal government as well, and in part also in New York and other states, it was these functions that tended to lag.

Politically these trends produce a vast number of men and women, all voters and their close kin, who have a vested interest in government jobs, in the continuance of departments and functions, in the maintenance of payrolls—that is, in the high cost of government.

The strongest resistance politically to the implementation of the Hoover reports, for instance, comes from organizations of government employees who object to reduction in government employment. In fact, the lobbying of such organizations in Washington and in state capitals is for constant increases in government spending, especially in their particular departments and agencies. Unless this trend is arrested, its political effect may be government by its own employees and an unending increase in taxes.

The question arises whether there is not danger that we will continue to increase this government labor force still further until so many are engaged in this manner that a large segment of the population will be withdrawn from the private enterprise labor force. Maybe that is good or bad or something, but it needs to be faced candidly. We are still shoving names on the government payroll perhaps to keep down unemployment figures. We are still paying taxes for a huge host of citizens whose services are of doubtful productive value.

"Did absorption by government of functions commonly performed at the opening of the century by private enterprise play any role in expanding government employment? Employees engaged in public service enterprises rose only slightly more rapidly than population. Measured in this way and in this sense, increased 'socialization' of production does not appear to have been a significant factor.

There is too little evidence to form any conclusion other than that the use of government employment to fight general unemployment has left us a heritage of a government payroll which has become of such political advantage that in spite of the Hoover reports, the political party in power dare not reduce its number, lest resentment over such an economy lead to political defeat. Yet, failure to reduce the government payroll means, apart from costs, that efficiency in government operations may be unattainable.

# That Body of Yours

By James W. Burton, M.D.

## ANOTHER TREATMENT FOR ASTHMA

In our student days we knew of no specific or special remedy to prevent or cure an attack of asthma. As few, if any, asthmatics died of asthma, the disease was not given the attention it deserved, considering the distressing symptoms present during an attack. Today every patient with asthma receives a thorough examination, and in the majority of cases he receives considerable relief.

When it was found that many cases of asthma were caused by allergy or sensitivity to various substances, skin and other tests of these substances—pollen, foods, furs, feathers—were made, and treatment by removing these substances from the food and air gave relief.

The next discovery was that defects of nose and throat—enlarged turbinates and polypi in the nose and sinus disturbances—were responsible alone for some cases, or responsible together with some allergic substance. The correction of the defect of nose and throat, and the use of a drug like benadryl gave relief.

Some individuals have asthma and hay fever because of their make-up or personality—they are overconscientious, ambitious, hard workers, both mentally and physically. There appears to be more histamine manufactured in them than in others, so that antihistaminic drugs like benadryl and pyribenzamine give relief.

A new method of treatment of asthma has been announced in "Science" by three research workers of the University of Illinois, Chicago, Drs. L. R. Krasno, M. Grossman, and A. V. Ivy. These physicians state that asthma paroxysms not controlled by adrenalin, pyribenzamine, and benadryl, should be given the new drug, noradrenaline which dilates or opens wider the bronchial tubes. Noradrenaline is inhaled as a dust from a small plastic container and gave relief in 23 of 24 cases reported by these physicians. No serious reactions occurred. The container holds but one dose usually, consumed in three to five minutes. The pulse rate occasionally increases 4 to 12 beats per minute after this treatment and blood pressure falls 3 to 20 mm. of mercury. As increase in pulse rate and decrease in blood pressure show shock present, the first dose of noradrenaline should be taken under supervision of a physician.

**Asthma, Causes and Treatment**  
The cause or causes of asthma were unknown until recently. Now it is known that allergy, nose and throat defects, and emotional disturbances can cause the attacks, most asthmatics can be helped. Send today for Dr. Barton's handy booklet entitled "Asthma," enclosing 10 cents and a 3-cent stamp, to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y., and ask for your copy of "Asthma, Causes and Treatment."

# Our Changing World

# The Washington Merry-Go-Round

By DREW PEARSON

Washington—In view of the B-36 probe, a lot of people are asking questions about Secretary of Defense Louis Johnson—what kind of man he is, how does he operate, what makes him tick. A thumbnail answer is that Johnson fancies himself a great politician, but is one of the world's worst. He considers himself a smoothie when it comes to personal relations, though actually he's a bungler. It was Johnson who neglected his personal relations with Chairman Carl Vinson of the House Armed Services Committee, while the admirals were butting him up. But, as secretary of defense, Johnson has one quality absolutely essential to running the armed services of the United States. He can make decisions. He isn't always tactful about them, but when the brass hats have finished talking to Johnson they at least know where they stand. Prior to Johnson's assumption of office, the joint chiefs of staff never came to decisions. Now they do.

**Defense Meetings**  
The joint chiefs of staff consist of Adm. Louis Board, chief of naval operations; Gen. Hoyt Vandenberg, chief of staff for air; and Gen. Omar Bradley, chief of staff for the army. The three secretaries—Stuart Symington for the navy and Gordon Grey for the army—sit with Johnson and the joint chiefs every Tuesday. When they leave the conference table there is nearly always either a definite decision on policy or a command to get more information in order to make the decision. In the latter case, Johnson will always set a date when the information must be on his desk. Sometimes if told the information will take three months to collect—he replies: "Make it three."

In addition to the Tuesday meetings of the joint chiefs of staff, Johnson meets on Mondays, Wednesdays and Fridays with the joint chiefs and his own staff. This consists of Undersecretary Steve Early, the assistant secretaries for defense, the joint chiefs and the research and development branch. Johnson goes the rounds of the

services, calls on the army, navy and air force, and, if any conflicts develop, they are decided on the spot. The secretary of defense listens carefully to both sides. "We'll do it this way, gentlemen."

**Admiral Halsey in Reverse**  
In making his decision, Johnson shows a tremendous knowledge of the three services. Part of this was gained when he was assistant secretary of the army in the Roosevelt administration, but part obviously was gained from a great deal of personal study. Johnson's decisions in favor of economy are now what have got him in so much trouble with the navy, which had found a more sympathetic listener in James Forrestal, its former boss. However, Forrestal, harassed, tired, and anxious to please, frequently postponed making decisions in his latter years.

This may have been what prompted Adm. "Bull" Halsey to testify at the secret hearings of the Richardson Board on unification: "I am probably one of the lone naval officers in favor of a single department (of national defense). In other words, I believe in unity. I want a department headed up by someone who could tell them (the brass hats) to do this, do that."

However, when Admiral Halsey got a secretary of defense who told the brass hats to do this, do that, he squawked to high heaven. Senators "Olsen and Johnson" A Negro messenger took the wind out of three senators who were expounding the other day over an NBC television broadcast. "The Negro dropped in just as Senators Ed Johnson of Colorado, Bill Knowland of California and Bourke Hickenlooper of Iowa were exchanging some profound ideas.

Cooking an intent ear the Negro picked up Senator Johnson's name, then solemnly commented: "I've heard this Olsen and Johnson show before."

**Tellus Kentucky, Senator**  
Homespun, easygoing Garrett Lee Withers is probably the most unaffected man in the U. S. Senate. The Kentucky Democrat takes his job, but not himself, seriously. If it's more comfortable to work in his office without

in tie-off comes the tie. The same applies to his shoes—if he isn't talking to visitors. Withers was sitting thus comfortably dressed when the Senate bell rung, announcing a quorum call. Quickly, the senator slid in to his shoes, but forgot his tie. And with his neck thus unadorned he rushed onto the floor of the dignified Senate.

Finally, Senate Special Officer Bill Brennan, who also hails from the Blue Grass country, beckoned Withers into an anteroom. "Senator, do you know that you aren't wearing a tie?" he asked. "My goodness!" exclaimed Withers, feeling his neck, "you're right. What am I going to do?" Brennan solved the "crisis" by slipping off his own necktie, a snappy, multicolored job, and looped it on the senator, who then answered his name on the quorum roll call.

**Merry-Go-Round**  
If the steel strike ended tonight, the nation would still lose more than 8,000,000 tons production equal to one-third of all the steel Russia produces in a single year. ... Dictator Peron of Argentina has proclaimed himself the great friend of labor, but last week he issued secret instructions that Argentine judges should decide on labor disputes in favor of management. ... Adm. Leland A. Beale, ace public-relations officer in the navy, had been picked by Commander Clyde Lewis of the Veterans of Foreign Wars to handle V.F.W. public relations. ... The State Department is losing one of its best young executives, Assistant Secretary Ernest Gross. He will now assist Sen. Warren Austin as deputy ambassador to the United Nations. ... The State Department has been smart in picking a man who served 12 years as secretary of the House Appropriations Committee to handle its relations with Congress. He is newly appointed Assistant Secretary Jack McCall. (Copyright, 1949, Bell Syndicate, Inc.)

**Twenty and Ten Years Ago**  
Oct. 15, 1929—Harry Laxarus sold his interest in the Broadway Theatre to the Frank V. Storris Realty Corp. the reported representative of Walter Reade, owner of the Kingston Theatre. The knife works at Napanoch was destroyed by fire. Mrs. John W. Lent of Glasco died. The Freeman thermometer recorded a noon high temperature of 57 degrees. Oct. 15, 1939—The total for the first two days of registration was 5,602. The city experienced its coldest weather to date for the season as the mercury dropped to 29 degrees. An unidentified body was found in the ruins of an apple picker's shack on a farm near Marlborough after it was destroyed by fire.

**So They Say...**  
We just want to end all legal discrimination. We want to make margarine a free product that can move on its own merits. —Paul Truitt, president of the National Association of Margarine Manufacturers. People are an asset, a natural resource, and not a liability. Humanity has the right, the duty and the privilege of having faith in the future. —Netherland's Dr. Egbert de Vries, expert on rural economies. **Last Chance to Register** Today is the final day of registration. The polls will be open until 10 o'clock tonight. If you do not register, you cannot vote in the general election next month.

# ROSENDALE NEWS

## Rosendale Grange Installs Officers

Rosendale, Oct. 14—At the regular meeting of Rosendale Grange 1501, which was held on Monday evening, Ross Osterhout and his installation team from Stone Ridge Grange installed the newly elected officers of the Rosendale order. Marshalls were Mrs. Isaac Graham and Mrs. Ross Osterhout. Mrs. Charles Hasbrouck was the vocalist, accompanied at the piano by Mrs. Frank Alteri. At the conclusion of the installation ceremonies, Ross Osterhout, by popular request, recited "Coney at the Ball."

Officers installed for the coming year were George Mollenhauer, master; Earl Mack, overseer; Mrs. Floyd Deitz, lecturer; Frank Simpson, steward; Egbert Mack, assistant steward; Mrs. Harry Boster, chaplain; Mrs. Russell Tonne, treasurer; Mrs. George Mollenhauer, secretary; Alfred Karlisch, borough, gatekeeper; Mrs. Earl Mack, Ceres; Mrs. Mary Sobers, Pomona; Mrs. Isabel Bordenstein, Flora; Doris Claus, lady assistant steward; William Meier, Walter Paradies and Dr. Simon Carrand, members of the executive committee.

Announcement was made of the appointment of Mrs. Gustav Claus as service and hospitality chairman. Mrs. Peter Lofello, Jr., retiring S. & H. chairman, was presented with a gift of bougainvillee by her committee. Walter Paradies reported that protective screening had been completed and installed on the outside of the large kitchen windows. He was assisted in this work by Earl Mack.

The next meeting on October 24 will feature a Halloween program, and members are asked to come in costume if they wish. Awards will be made for the funniest and prettiest costumes.

## School Meeting

Rosendale, Oct. 14—The Rosendale Union Free School Association will hold its regular meeting on Tuesday, Oct. 18 at 8:30 p. m. in the school. Guest speaker at the meeting will be the well-known "Pop" Fuhrman of Kingston, who will speak on "Are There Any Bad Children?" Refreshments will be served by the committee in charge, following the meeting. The public is cordially invited to attend.

## Local Keglers Win

Rosendale, Oct. 14—In match games which took place Saturday evening at the Chalet bowling alley, the Rosendale local trippers outscored the visiting leggers from Kingston by a total of 292 pins. The Kingston team rolled three games of 573-602-529 for a total pinfall of 1,704. Rosendale rolled 569-649 and 588 for a total of 1,806 pins. A match game will be played at the Ferraro Bowldrome in Kingston on Saturday evening, October 22. Representing Kingston were S. Heins, D. La Rocca, H. Harris, D. Szymanski and M. Wyant. The Rosendale contingent included E. Blakely, T. Tenedini, H. Sutton, L. Tenedini and E. Siors.

## Polio Figures

Rosendale, Oct. 14—With several pledges still outstanding, Steve Huben, chairman of the polio emergency fund campaign reports total collections received to date as \$1,035.55, which exceeds the original March of Dimes collection by approximately \$83. \$144.03 represents solicitations made by pupils of the area schools as follows: Creek Loels, \$32.14; Cottekill, \$18; Rosendale, \$16.60; Whiteport, \$18; Maple Hill, \$8.93; Millish, \$41.70; \$19.85 of which was due to the special efforts of one girl in the school. Other donations received to date include: Bloomington Fire Company, \$20; Ladies' Auxiliary of the Bloomington Fire Company, \$25; Democratic Club, \$10 additional; collections taken at the Rosendale Theatre, \$57.22. Assistant Steve Huben in the polio emergency drive is Charles Ruliff, co-chairman.

## Rosendale Women To Collect Clothing

Rosendale, Oct. 14—In response to a letter received from Mrs. Fred Roelgen, past president of the Rosendale Women's Club, the organization planned at its Tuesday night meeting to collect clothing for boys and girls from 6 to 16 to be sent to an orphanage in Weiden, Germany, where, according to Mrs. Roelgen, who is visiting there, the items are badly needed. Members are asked to re-

## Service Men's Bonus

Bennington, Vt., September 29, 1949  
Editor, The Freeman  
This letter is addressed to the people of the state of New York through your paper.

Two years ago your representatives in Albany voted the passage of a bill to provide a bonus for veterans of the state of New York.

Included in this bill was a stipulation to the effect that a veteran who had moved from the state was no longer eligible for the bonus.

I was born in Hampton, Washington county and lived there from birth until my enlistment in the navy, where I served four and a half years.

Since my discharge, before the bonus was voted, I moved from the state to present location, because I found a better position here than my particular section had to offer at that time. When the bonus was voted, I applied for it, and was returned on the grounds that I no longer resided in the state.

It is my opinion that the original sponsors of the bill to provide a bonus for veterans of the state of New York did not intend to deprive deserving veterans from the bonus and I do not think of the intention of thinking people in the state to do so.

You, the people of the state of New York, will have the opportunity at the coming election in November to remedy this unfortunate situation now existing in the bonus law.

I urge you in fairness to your veterans, to vote in favor of paying the bonus to servicemen who have moved from the state since their discharge, and who have not received a bonus from any other state.

Sincerely,  
ROBERT B. BROWN  
Bennington, Vt.

Housewife—It's tough to pay 60 cents a pound for meat! Husband—Mmm! But it's tougher when you pay only fifty.

In California a woman went driving a car in the nude. A number of women, but no men, telephoned the police. It only goes to prove what many have suspected or known, that a man never notices what a woman wears.

Customer—Is that hair tonic any good?  
Barber—Sure, I spilled some of it on my comb last week and now it's a brush.

The driver is safer when the roads are dry. The roads are safer when the driver is dry—Denver Post.

Husband—Have you ever wondered what you'd do if you had Rockefeller's income?

Wife—No, but I have often wondered what he would do if he had mine.

'It's not the work I enjoy,' said the taxicab driver, 'it's the people I run into.'

Traffic Officer—Pull over to the curb, mister. You haven't any tail light.

The motorist stopped, got out for a look, and was speechless with dismay.

Traffic Officer—Oh, it isn't that bad.

Motorist (quivering)—Oh, it isn't the tail light that bothers me—where's my wife and trailer?

## Questions-Answers

Q—What was Edgar Allan Poe's first published volume?

A—"Tamerlane and Other Poems" was Poe's first published volume. He printed it himself, anonymously, in Boston in 1827. Only a dozen copies of this 40-page pamphlet are known and no new one has been discovered for years.

Q—I know old is the woolen industry in this country.

A—The wool manufacturing industry of the United States started in Massachusetts, in 1790, when the first wool-ensling machine was set up.

### Valentino in 8th

San Francisco, Oct. 15 (AP)—Ezzard Charles, lanky master boxer, chopped down challenger Pat Valentino with a single smashing right last night to successfully defend his world (B.A.) heavyweight boxing title.

The Cincinnati Negro, a swift footed, sharp punching 182 pounder knocked out mop haired Valentino in 35 seconds of the eighth round of their scheduled 15-round fight at the San Francisco Cow Palace. Valentino, a San Franciscoan, weighed 188½.

The first heavyweight championship battle held in this area in forty years, it was a slambang fight that had the record crowd of 19,590 fans cheering wildly at times.

Charles crushed Valentino's title hopes with a right to the jaw. The challenger who had exchanged blow for blow in furious rallies, went down with a thud. He tried to stagger to his feet but fell back again as Referee Jack Downey finished the ten count.

It was Charles' second successful defense since he beat Joe Walcott to win N.B.A. recognition as successor to Joe Louis last June. The titleholder stopped Gus Losonovich in August.

Charles outboxed the challenger in the opening round landing left hooks and rights to the face, but Valentino won a margin in the second and third with a punishing attack on the champion's mid-section.

The fourth was considered about even but Charles' boxing skill and his long range shots to the head gave him the edge in the remaining sessions. Charles at last took command after sending Valentino back on his heels with a stinging right to the nose late in the fourth round.

The Associated Press score sheet and most of the boxing writers had the champion out in front at the start of the eighth.

Referee Jack Downey and Judge Frank Carter, both San Franciscoans, had Valentino in front by a single point. Judge Frank Munford of Fresno had Charles ahead by two points after the seventh.

Charles had the option of a \$40,000 guarantee or 35 per cent of the gate receipts, which would give him about \$45,500.

Valentino worked for a flat \$5,000 guarantee.

Fort Worth, Tex. — Marlene Bauer defeated Betty Mackinnon, 1-up, and Beverly Hanson ousted Mary Lena Paulk, 4 and 3, to gain finals in Texas women's open tournament.

New York, Oct. 15 (AP)—The World Series may be over, but baseball refuses to be crowded out of the sports page.

For the second straight day, all three New York clubs put over deals in strengthening for next season.

Dodger boss Branch Rickey, who two days ago pocketed a reported \$100,000 from the Chicago Cubs for pitcher Paul Minner and first baseman Preston Ward, sold Mary Reckley to Cincinnati for about \$50,000 and Dick Whitman to the Philadelphia Phils for \$25,000.

Hugh Casey Released

The New York Yankees brought up Paul Hinrichs, a right-handed bonus pitcher from Kansas City, at the same time sending relief pitcher Ralph Buxton down to their American Association farm club and releasing veteran Hugh Casey.

Hinrichs, troubled by a groin injury during part of the season, compiled a dull 3-10 record at Kansas City, but was an 18-5 performer with Lubbock in the West Texas-New Mexico League in 1947 and 9-8 at Dallas in the Texas League in 1948.

The Yankees paid a \$40,000 bonus to Hinrichs last year after he was declared a free agent by Commissioner A. B. Chandler.

Casey, who celebrated his 36th birthday yesterday, was handed his unconditional release. He was picked up September 4, after the Pittsburgh Pirates let him go. He appeared in four games with the Yankees and worked only 7 2/3 innings during the last month of the season. He had a 4-0 record.

The New York Giants purchased Louis Stealer, a left-handed bonus pitcher from Jacksonville of the South Atlantic League.

Stealer, 22, had a 13-13 record in Class A this past season. He allowed 198 hits and struck out 142 in 226 innings.

In getting Reckley, the Reds acquired a .303 hitter, but the fleet-footed flycatcher played in only 74 games. Whitman saw even less service, hitting only 184 times. Reckley is 28 and Whitman will be 29 next month.

Rhinebeck Track Concludes Tonight

Stock car racing for the 1949 season will conclude tonight at the Rhinebeck Speedway where the 50-lap "mad cap" event will feature the closing schedule.

In announcing the eight-event program, Promoter Steve Ivo listed the starting time for 8:15 o'clock.

Among those who will be entered in the races are Al Keller, "Jokko," Ray Brown, Bob Tator, Dick Eagan, Al Gara, George Landry, Stan Disbrow, Bob Devine and many other top-notch drivers.

Stock car racing for the 1949 season will conclude tonight at the Rhinebeck Speedway where the 50-lap "mad cap" event will feature the closing schedule.

In announcing the eight-event program, Promoter Steve Ivo listed the starting time for 8:15 o'clock.

Among those who will be entered in the races are Al Keller, "Jokko," Ray Brown, Bob Tator, Dick Eagan, Al Gara, George Landry, Stan Disbrow, Bob Devine and many other top-notch drivers.

Hollywood, Calif.—Art Aragon, 136, Los Angeles, outpointed Julio Jimenez, 138½, Mexico City, 10.

Boxing

San Francisco, Oct. 15 (AP)—Ezzard Charles, lanky master boxer, chopped down challenger Pat Valentino with a single smashing right last night to successfully defend his world (B.A.) heavyweight boxing title.

The Cincinnati Negro, a swift footed, sharp punching 182 pounder knocked out mop haired Valentino in 35 seconds of the eighth round of their scheduled 15-round fight at the San Francisco Cow Palace. Valentino, a San Franciscoan, weighed 188½.

The first heavyweight championship battle held in this area in forty years, it was a slambang fight that had the record crowd of 19,590 fans cheering wildly at times.

Charles crushed Valentino's title hopes with a right to the jaw. The challenger who had exchanged blow for blow in furious rallies, went down with a thud. He tried to stagger to his feet but fell back again as Referee Jack Downey finished the ten count.

It was Charles' second successful defense since he beat Joe Walcott to win N.B.A. recognition as successor to Joe Louis last June. The titleholder stopped Gus Losonovich in August.

Charles outboxed the challenger in the opening round landing left hooks and rights to the face, but Valentino won a margin in the second and third with a punishing attack on the champion's mid-section.

### Valentino in 8th

San Francisco, Oct. 15 (AP)—Ezzard Charles, lanky master boxer, chopped down challenger Pat Valentino with a single smashing right last night to successfully defend his world (B.A.) heavyweight boxing title.

The Cincinnati Negro, a swift footed, sharp punching 182 pounder knocked out mop haired Valentino in 35 seconds of the eighth round of their scheduled 15-round fight at the San Francisco Cow Palace. Valentino, a San Franciscoan, weighed 188½.

The first heavyweight championship battle held in this area in forty years, it was a slambang fight that had the record crowd of 19,590 fans cheering wildly at times.

Charles crushed Valentino's title hopes with a right to the jaw. The challenger who had exchanged blow for blow in furious rallies, went down with a thud. He tried to stagger to his feet but fell back again as Referee Jack Downey finished the ten count.

It was Charles' second successful defense since he beat Joe Walcott to win N.B.A. recognition as successor to Joe Louis last June. The titleholder stopped Gus Losonovich in August.

Charles outboxed the challenger in the opening round landing left hooks and rights to the face, but Valentino won a margin in the second and third with a punishing attack on the champion's mid-section.

The fourth was considered about even but Charles' boxing skill and his long range shots to the head gave him the edge in the remaining sessions. Charles at last took command after sending Valentino back on his heels with a stinging right to the nose late in the fourth round.

The Associated Press score sheet and most of the boxing writers had the champion out in front at the start of the eighth.

Referee Jack Downey and Judge Frank Carter, both San Franciscoans, had Valentino in front by a single point. Judge Frank Munford of Fresno had Charles ahead by two points after the seventh.

Charles had the option of a \$40,000 guarantee or 35 per cent of the gate receipts, which would give him about \$45,500.

Valentino worked for a flat \$5,000 guarantee.

Fort Worth, Tex. — Marlene Bauer defeated Betty Mackinnon, 1-up, and Beverly Hanson ousted Mary Lena Paulk, 4 and 3, to gain finals in Texas women's open tournament.

New York, Oct. 15 (AP)—The World Series may be over, but baseball refuses to be crowded out of the sports page.

For the second straight day, all three New York clubs put over deals in strengthening for next season.

Dodger boss Branch Rickey, who two days ago pocketed a reported \$100,000 from the Chicago Cubs for pitcher Paul Minner and first baseman Preston Ward, sold Mary Reckley to Cincinnati for about \$50,000 and Dick Whitman to the Philadelphia Phils for \$25,000.

Hugh Casey Released

The New York Yankees brought up Paul Hinrichs, a right-handed bonus pitcher from Kansas City, at the same time sending relief pitcher Ralph Buxton down to their American Association farm club and releasing veteran Hugh Casey.

Hinrichs, troubled by a groin injury during part of the season, compiled a dull 3-10 record at Kansas City, but was an 18-5 performer with Lubbock in the West Texas-New Mexico League in 1947 and 9-8 at Dallas in the Texas League in 1948.

The Yankees paid a \$40,000 bonus to Hinrichs last year after he was declared a free agent by Commissioner A. B. Chandler.

Casey, who celebrated his 36th birthday yesterday, was handed his unconditional release. He was picked up September 4, after the Pittsburgh Pirates let him go. He appeared in four games with the Yankees and worked only 7 2/3 innings during the last month of the season. He had a 4-0 record.

The New York Giants purchased Louis Stealer, a left-handed bonus pitcher from Jacksonville of the South Atlantic League.

Stealer, 22, had a 13-13 record in Class A this past season. He allowed 198 hits and struck out 142 in 226 innings.

In getting Reckley, the Reds acquired a .303 hitter, but the fleet-footed flycatcher played in only 74 games. Whitman saw even less service, hitting only 184 times. Reckley is 28 and Whitman will be 29 next month.
